(For Larger/Bulk quantities see sales staff for separate pricing)

Bamboo is a strong natural renewable resource, will not rot or decay. **Some weathering and cracking will occur** (especially exposed to northern or western orientations) **fading is more prevalent with the darker colours.** To help prevent and slow this process we recommend 'Bamboo Treatment' Available at Chippy's Outdoor. Can be applied either by spraying or brush on.

The nodes on the bamboo should always be faced to the top. Capping is recommended to protect from moisture penetration.
